User Stories

User Story 5: As a user if I'm hungry and I want to look up a healthy recipe.

Description: The user will navigate to the recipes page where there will be 3 categories the user can choose from: Breakfast, Lunch, Dinner. The user clicks on the one they want and will be directed to a list of healthy recipes for that category. The user selects whichever recipes they want and they will be brought to that recipe's page which will list the ingredients and instructions for making the recipe. In addition, there will be a feature to add the calorie information of the recipe to the user's calorie tracker.
